## California Wing Policy Letter 18

### Subject: CAWG Form 31

The CAWGF 31, *California Wing-Application For CAP Activity* is used for cadet activities. The form contains contact information, liability release agreements, unit commander certification of the information provided and suitability of the cadet to participate in the requested activity, as well as brief medical and insurance data to be used in case of emergency. It is the policy of California Wing that all cadets attending overnight activities will submit a completed CAWGF 31 to the activity commander. Use of the form is further recommended for all cadet activities held away from the home unit of assignment. A copy of the form will be available at the activity for reference in case of medical emergency.

Cadets under 18 years of age must have the permission of their parents or guardian to participate. Cadets over 18 may certify themselves on the liability release.

*Virginia M Nelson*
