	PCR-CA-802	714 Escondido, CA	2	5	3	Yes	9	0	5	2	2	19	No	No	NO

**Column F (# Criteria)** is the number of QCUA criteria that the squadron is currently meeting. Bright green highlight indicates squadron's that have meet 6 or more criteria and will qualify for QCUA as is (Column R (QCUA)). Green bordering are squadrons meeting 4 to 5 criteria. Red highlight are squadrons meeting only 1 to 2 criteria.

**Columns G-N (GES-TLC)** are the number of cadets/SMs that the squadron still needs to qualify in that criteria based on the criteria percentage for their squadron. For example, squadrons with a "1" under GES only need one cadet to pass the GES exam to meet their 60% requirement. Squadrons with "0" are perfectly meeting their requirement. Squadrons with a negative number have more than the requirement. Red text are criteria that need 5 or fewer criteria to meet.

**Columns M and N (TLC)** depict the squadron's current and future standing in the TLC criteria. **Column M** is how many SMs with TLC credit the squadron currently needs. **Column N** takes into account how many of the squadron's current SMs with TLC will have their TLC expire before 31 August 2024 to show how many they will need to qualify for this QCUA cycle. Cells highlighted in red under Column N indicate squadrons that may currently meet the TLC criteria but will not by the end of this QCUA cycle.

**Column O (Cadets)** is the number of cadets on the squadron's roster. Green text are squadrons with more than 25 cadets. Yellow text are squadrons between 20-24 cadets.

**Columns P and Q (Curry & Outside)** are whether or not squadrons are meeting the respective criteria.
